

Rear Projection SMART Board™ 2000i

Interactive Whiteboard

Stimulate students with visual, hands-on learning

Enrich lessons by writing over applications

Encourage active participation with easy-to-use touch control

Move or adjust the 2000i to make activities accessible to all learners

One interactive whiteboard, countless possibilities

Create an engaging learning environment with the Rear Projection SMART Board 2000i interactive whiteboard. Designed and priced for educators, the economical 2000i combines touch control with adaptability and remarkable ease of use.

Simply touch the large-screen display to control computer applications, present lessons and navigate Web sites – all without casting a shadow. Write over any application or Web site to make notes and highlight points. Save your work for future lessons, planning or student review.

The built-in projector makes start-up effortless – just push the green button to begin. The height-adjustment handle and locking casters let you position the 2000i to suit the needs of your students, whether they're tall or small, seated or standing. Whatever the learning activity – from solving equations to watching movies – the 2000i goes where you need it.

Cabinet Depth	29 1/8" (74 cm)
Weight	282 lb. (127.8 kg)

Front View

(shown at maximum height)

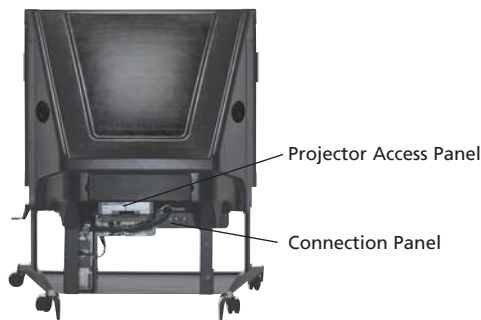

NOTE: Computer not included.

Side View

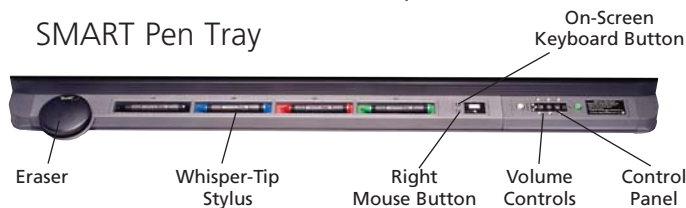

Back View

(shown at minimum height)

SMART Pen Tray

Features

Touch System

DViT™ (Digital Vision Touch) technology, developed by SMART (patents pending), lets you use your finger as a mouse and write on the screen – without special tools. DViT technology uses cameras in the corners to track contact on the screen.

SMART Pen Tray

Optical sensors automatically detect when a stylus or the eraser is selected, while buttons activate the on-screen keyboard and right-mouse click. Whisper-tip™ styluses and eraser included.

Integrated Projector

SVGA (800 x 600) projector with short-throw lens comes installed. A 2000i model with an installed XGA (1024 x 768) projector is available.

Control Panel

Access projector power and input sources directly from the SMART Pen Tray.

Height-Adjustment Handle

Raise and lower the screen from 69" (175.3 cm) to 83" (210.8 cm).

SMART Screen

Diffusion screen significantly reduces ambient light reflection and glare, and delivers a high-contrast, uniform image with a wide viewing angle.

Audio System

Control the volume of the stereo-amplified speakers from the front of cabinet.

Locking Casters

Four 4" (10.2 cm) casters make the 2000i easy to move.

Storage Tray

Secure your computer and peripherals on the bottom tray for easy access.

X-Port™ 20 Switch (Optional)

Switch serial, audio and video from the internal computer to a connected laptop.

Laptop/Videoconferencing Shelf

Support your peripherals by using the easily connectable shelf.

SMART Board Software

Control any computer application, write and edit notes, and save everything in a single file. Features include capturing your notes with Notebook™ software, recording synchronized audio and data with SMART Recorder, handwriting recognition, and writing over top of moving or still video. Free upgrades are available. SMART Board software is available for various operating systems and in multiple languages (Windows® operating systems only). Visit www.smarttech.com/sbssoftware.

SMART Ideas® Software

A free copy of SMART Ideas concept-mapping software comes with all SMART Board interactive whiteboards. Find out more at www.smarttech.com/smartideas.

System Requirements

Windows Operating Systems
